

K-Love provides a radio station where my family can listen without worrying about what my 5 year old daughter will hear. They also provide a local community calendar as to what events are happening in my area. This station does NOT use comedy that degrades to gain ratings. They are on the radio to serve not make money. The artist provide positive roll models for my family. This is the only music radio station that I listen, If this station were take off the air I would not listen to the radio. This station believes in same family value that I hold dear. Please renew the license so that my family and others will have a positive alternative on the radio.

Thank you.
